COSMETIC DERMATOLOGY
& BODY CONTOURING

LOS ANGELES, CA

**BEAUTY
WITHOUT
BOUNDARIES**

EQUAL PARTS PERFECTIONIST, SCIENTIST & ARTIST

Dr. Jason Emer is the board-certified dermatologic surgeon behind some of Hollywood's most defined bodies, impeccable complexions, and chiseled facial features. His redefining work in the aesthetic field has brought him widespread acclaim and awards.

Advanced medical technologies, such as ultrasound, laser, and radiofrequency (RF) heating, combined with a one-of-a-kind inventive approach allow Dr. Emer to do what others are unable to. His meticulous attention to detail and personalized approach to patient care achieve astonishing results and lifelong relationships.

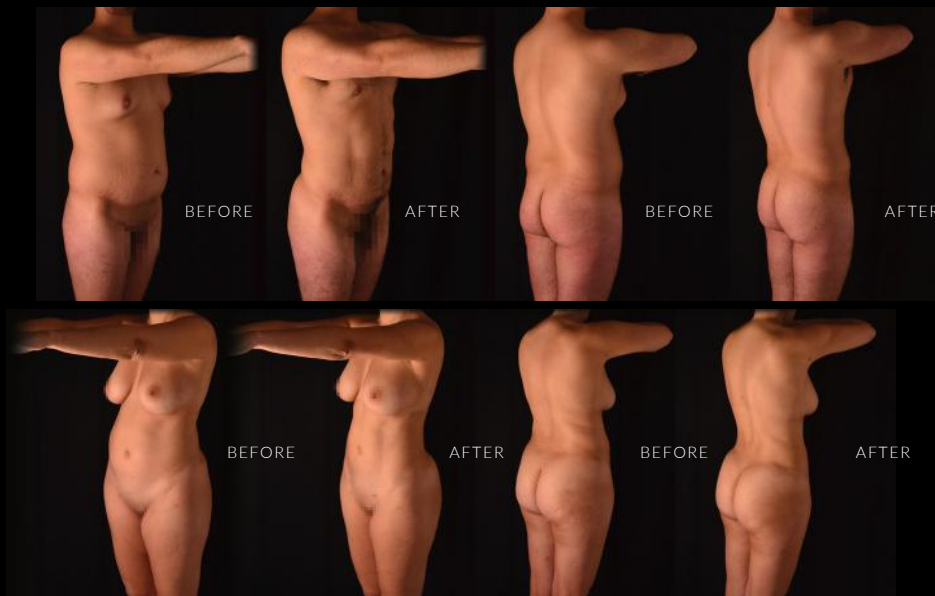

HI-DEF BODY CONTOURING

A BODY THAT FOLLOWS NO RULES

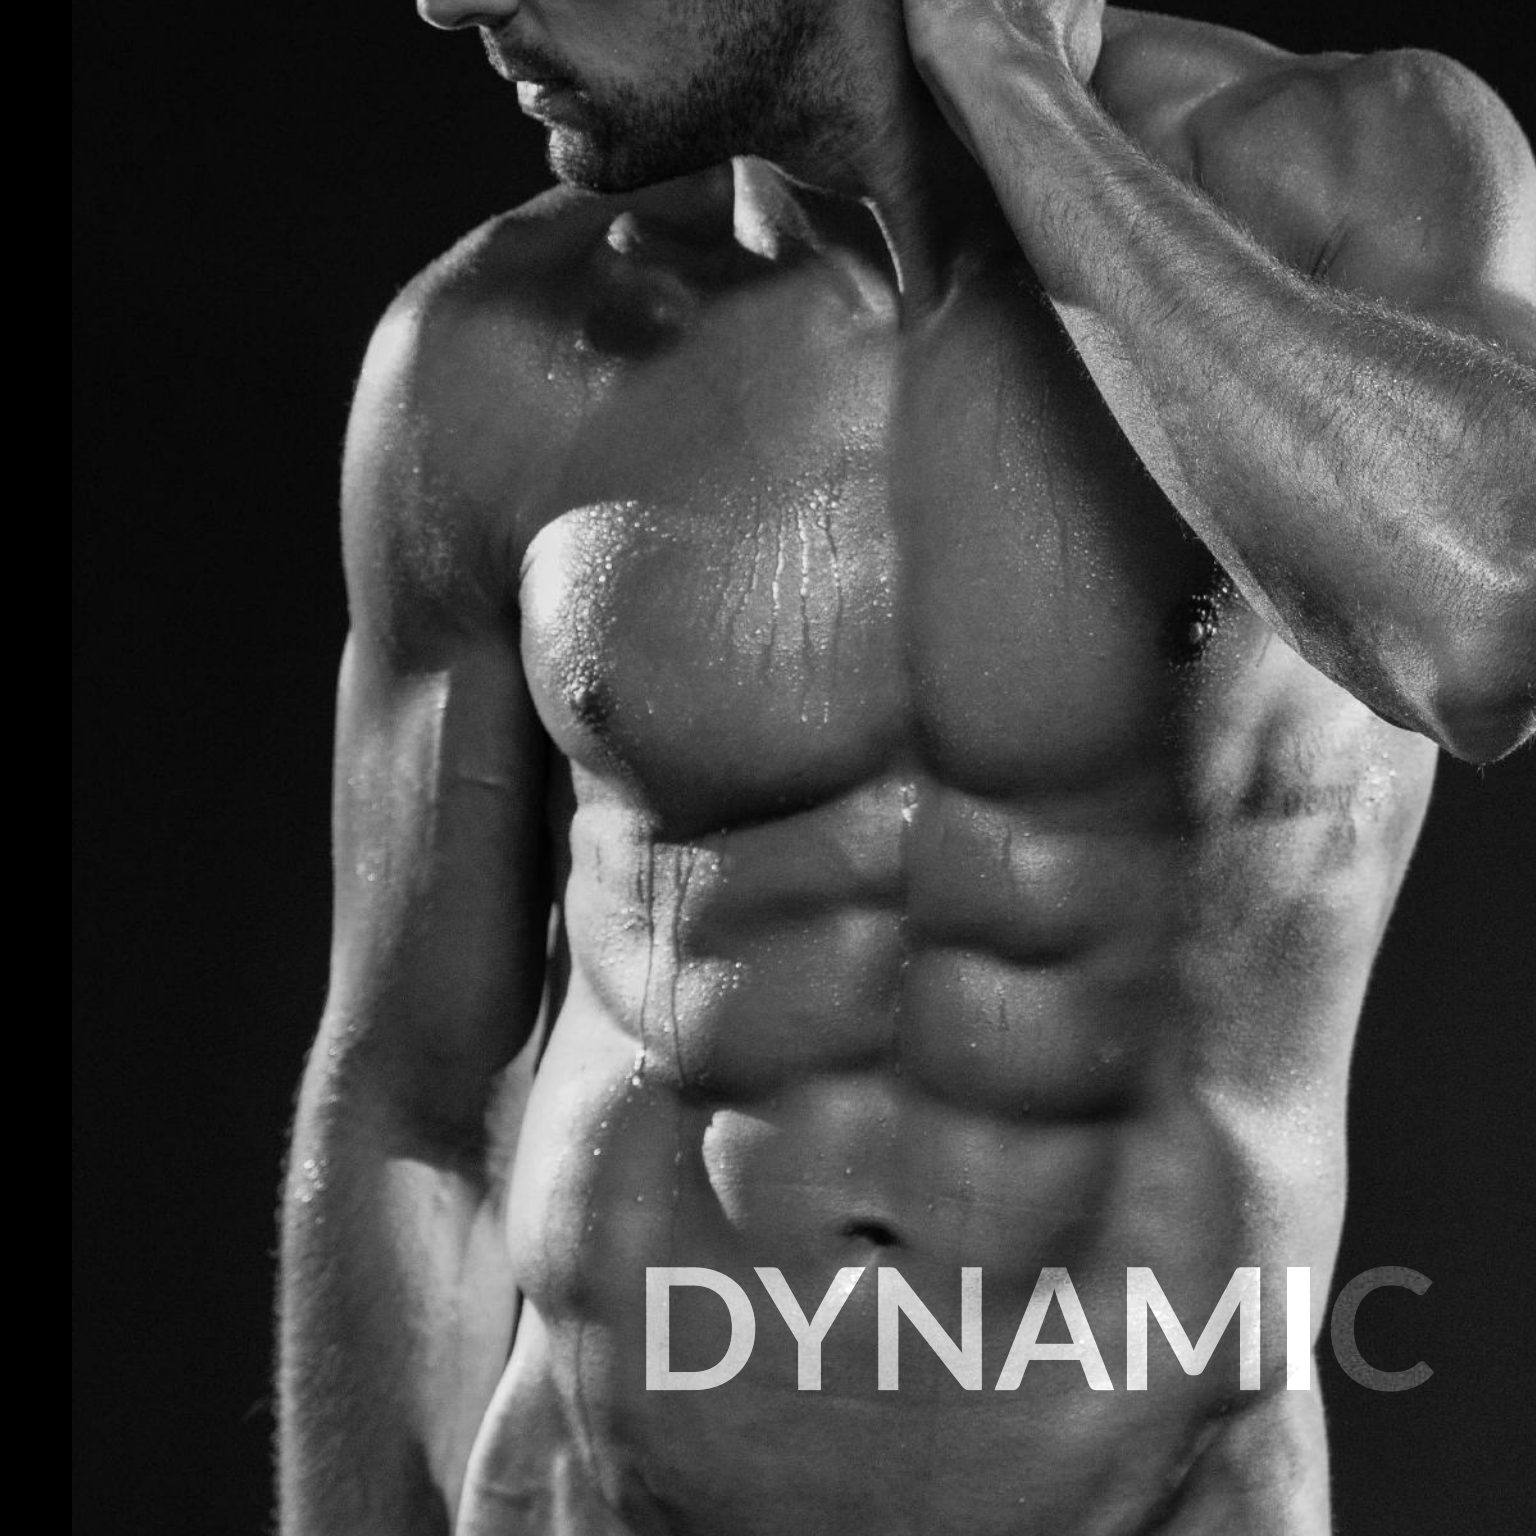

Using instinctive techniques and advanced tools, Dr. Emer can shape a perfect curve, sculpt and define six-pack abs, or fix a terribly botched procedure. This is not traditional liposuction or body contouring; every detail is perfectly and meticulously designed to not only remove fat, but to also tighten skin, refine and contour musculature, and improve cellulite. Difficult areas to treat, such as the legs, calves, chest, and back are his unique specialties.

Advanced medical technologies, such as ultrasound, laser, and radiofrequency (RF) heating, combined with a one-of-a-kind inventive approach allow Dr. Emer to do what others cannot. If skin removal, body sculpting, muscular implants, or breast gland removal are needed, his surgical team works together to ensure a full body transformation in the safest way possible.

Hi-Def liposuction can give you an admirable body with minimal imperfections. Precision, artistry, and skill combine to create stunning final results. Why be great, when you can be exceptional?

NON-SURGICAL FAT REDUCTION & SKIN TIGHTENING

REMARKABLE TRANSFORMATIONS WITHOUT SURGERY

Combining revolutionary non-invasive technology, an artistic eye, and total dedication to perfection, Dr. Emer can lift, tighten, and sculpt even the most difficult fatty areas and saggy skin without a single incision. With Dr. Emer's caring, patient-focused approach and pioneering expertise, you can achieve a slimmer, tighter figure, contoured musculature, and ultimately, a total body transformation.

Non-surgical body contouring and skin tightening technology rely on non-invasive thermal energy, cryolipolysis, radiofrequency waves, microfocused ultrasound, thread lifting, and other advanced medical techniques. These technologies tone and tighten the most stubborn pockets of unwanted fat, cellulite, and sagging skin for personally tailored, natural-looking, long-lasting results.

Dr. Emer possesses the unparalleled skill, compassion, and artistry necessary to provide stunning enhancements without the downtime of surgery.

FACIAL SCULPTING

ENHANCE YOUR FEATURES THROUGH FINE DETAILS

Trust your face to a true artist, a true expert. Natural, preventative results require a full assessment of your facial features and contours, as well as a complete understanding of your true desires.

Fillers, fat injections, and collagen stimulators can be used to lift, volumize, and improve fine lines and wrinkles on the face. Whether creating a more chiseled jawline, improving under eye hollows, shaping a cheek, or plumping a lip, a complete understanding of anatomy and aging are essential for unimaginable outcomes.

Exceptional results are not a matter of chance, they are a matter of choice. Dr. Emer has the technical dexterity, artistic eye, and devotion necessary to create subtle enhancements without anyone noticing. His techniques using cannulas (no needle injection) limit bruising and swelling so treatments can be done with little to no downtime.

BREAK THE MOLD

REGENERATIVE MEDICINE

A NON-TRADITIONAL APPROACH TO IMPROVING YOUR HEALTH

Reverse the signs of aging through stem cell technology, customized intravenous infusions, cellular function booster programs, regenerative skincare and antioxidant supplements that utilize the body's own ability to naturally heal or rejuvenate. Our unique inside-outside approach is the key to getting lasting results.

Healing is a complex science and we are experts in human physiology, from restoring and repairing damaged tissue all the way to improving function, reducing pain, and decreasing inflammation throughout your body and joints. This science of healing is performed with targeted platelet-rich plasma (PRP), fat lipoaspirate, stem cell biotechnology, and the latest bio-cellular science.

A customized regenerative plan accelerates healing pre- and post-treatment with a composition of progressive cellular optimization, hyperbaric oxygen therapy, laser and light therapies (such as photodynamic therapy), and topically applied growth factors.

ACNE & GENERAL SCARRING

VISUALLY ASTOUNDING RESULTS THROUGH COUNTLESS TREATMENT

As a world-renowned scar expert, Dr. Emer draws upon numerous cutting-edge modalities and years of proficiency to create unique treatment options that cannot be found elsewhere in the world. Dr. Emer's secret is to treat each scar individually with a unique modality that is chosen based on the root cause and current physical appearance of the scar. Scars are improved most effectively with numerous procedures working together.

Red/Purple – Intense Pulsed Light (IPL), Yellow Laser, Pulsed Dye Laser or V Beam, Excel V

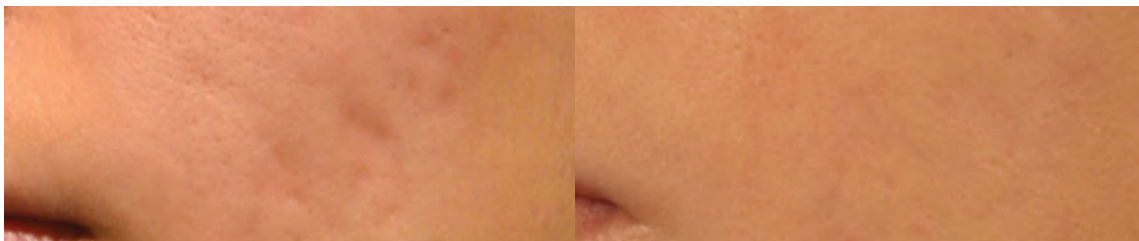

Hypertrophic/Keloid (Thick) – Microneedling, Ablative or Non-Ablative Laser Resurfacing, Steroid/5-FU Injections, Vascular Laser

Atrophy (Thin) – Microneedling, Ablative or Non-Ablative Laser Resurfacing, Microneedling Radiofrequency (RF), Dermal Fillers, Fat Injections, Collagen Stimulators, Silicone, Chemical Peels

Ice Pick – TCA Cross, Punch Excision, Microneedling RF

Boxcar – Microneedling, Ablative or Non-Ablative Laser Resurfacing, Microneedling RF, Subcision, Dermal Fillers, Fat Injections, Collagen Stimulators, Silicone

Improving scars requires a custom, tailored approach that is driven by patient concerns. Dr. Emer understands that this requires a careful merger between a combination of treatments, the right tools to accomplish specific goals, and pushing the limits.

—INNOVATIVE—

PIGMENTATION & TEXTURAL IRREGULARITIES

AN AESTHETIC VISIONARY WITH BOLD COMBINATION TECHNIQUES AHEAD OF HIS TIME

Approaching every concern with passion and care while also applying meticulous detail, expert skill, and intermingling techniques, Dr. Emer is at the forefront of treating unwanted pigmentation or skin texture issues. Brown sun spots, melasma, red broken blood vessels, rosacea, ruddy yellow stained skin from aging and sun exposure, unwanted tattoos, and chronic inflammation can all be treated with specific wavelengths of light, laser, and radiofrequency (RF) energy.

With a medical device or laser targeted towards any color or pigmentation, combined with advanced skincare, Dr. Emer will develop an exclusive protocol designed just for you. Comprehensive and innovative combinations translate to the achievement of your desired aesthetic improvements in both the short and long term.

DOWN UNDER

EMPOWER YOURSELF

From penile enhancement and anal rejuvenation to vaginal rejuvenation, Dr. Emer has the innovation and science necessary to treat your sensitive concerns.

By utilizing the latest advances in platelet-rich plasma (PRP) and stem cell injections, hyaluronic acid dermal fillers, laser, shock waves or vibrational therapy (Cellutone, Z Wave), and radiofrequency (RF) skin heating, Dr. Emer can increase a man's sensitivity and increase blood flow to improve erections and sexual stamina, and dramatically improve the cosmetic appearance of the genitalia, including the penile girth and scrotal size and wrinkles. Excessive sweating in this area can also be treated using Botox, Dysport or Xeomin.

For women, numerous RF devices (ThermiVa, ThermiRF, BTL UltraFemme) combined with laser treatments (Asclepion Juliet Erbium Laser) can restore vaginal tightness, increase vaginal moisture, and improve dryness. These treatments can be supplemented with targeted PRP, fat lipoaspirate, stem cell biotechnology, and the latest bio-cellular science.

With honesty and trust as his core values, Dr. Emer is driven, dedicated, and focused on your special care and confidentiality.

METICULOUS

LASER, RADIOFREQUENCY & MICRONEEDLING

FEEL BEAUTIFUL, INSPIRED, & CONFIDENT WITH YOUR RESULTS

Equipped with the most advanced and cutting-edge lasers, radiofrequency (RF) devices, and microneedling, Dr. Emer applies his skill and expertise to create customized treatment plans for all of your skin care needs. He uses innovative combinations unlike any other cosmetic dermatologist to get faster and safer improvements in complexion, texture, pore size, and wrinkles.

Every detail is addressed individually, whether it be for skin type, scar, wrinkle, or pigmentation, to get impressive results. Previously botched procedures or burns can be treated with unparalleled protocols and outside-the-box options that no other professional has or thinks to offer.

Whether it is for self-improvement, age prevention, or to treat a botched procedure or burn, Dr. Emer is devoted to helping you. Empower yourself by choosing a physician whose life's work is dedicated to providing satisfying outcomes and pioneering the aesthetic field.
